

PEDDERS

TOURING BLACK **GAS**

With a variety of part numbers in the range, Pedders Touring Black Gas shock absorbers, struts and strut cartridges are an ideal alternative for the budget conscious motorist.

The Touring Black Gas Shock Absorber range has also been extended recently to include common four-wheel drive vehicles, providing owners with a third shock option, complementing Pedders premium TrakRyder Shock Absorbers.

Like other gas pressurised shock absorbers, Touring Black Gas provides motorists with a number of advantages, including longer shock life and more effective damping to reduce noise and vibration - all at an affordable price.

Touring Black Gas's performance edge over its main rivals results from a number of factors including precisely tuned valving, heavy duty construction and gas pressurisation.

The twin tube assembly, durable chrome shaft, high quality piston rod seal and the use of very accurate nitrogen gas pressure combine to give the Touring Black Gas a superior, smoother and quieter ride.

This makes the Touring Black Gas a cost effective, durable shock absorber designed to match Original Equipment ride quality meaning it will perform as good as, if not better than the original part. The superior features of Pedders Touring Black Gas shock absorbers translate into quality not normally available in shock absorbers in its price range.

THE BENEFITS OF **TBG**

The Touring Black Gas shock absorber has been designed with several distinct features which separate it from most of its competitors.

The Touring Black Gas is resistant to fade, which means that the shock absorber will continue to deliver a high level of ride comfort for a longer period of time than most of its competitors.

And precise tuning of the shock valving delivers a more comfortable ride while maintaining optimum wheel control and road handling.

These special features give the Touring Black Gas similar performance to premium quality gas shock absorbers at a more affordable price.

Straight advice, specialists you understand and... No Bull

Pedders Suspension provides a comprehensive two-year, 40,000km nation wide warranty on Pedders brand-name products designed for road use, including shock absorbers, struts, springs and steering gears.#
