8457L/R	Toyota	Camry 02-	Rear Shock

This month Pedders is pleased to announce the release of selected Comfort Gas Shocks for various model applications.

The Pedders Comfort Gas Shock Absorber system has a unique nature of the oil flow process which provides a progressive response to ever changing road conditions. Unlike existing "position sensitive" shock absorbers that switch between firmer and softer control, Pedders VRD shocks provide a progressive shock response rate throughout the full range of shock travel.
