

DOES YOUR HYUNDAI ILOAD CARRY LOADS?

Are you always loading up your iLoad? Pedders has the answer for you with a certified GVM+ upgrade kit.

When your vehicle is fully loaded for the journey ahead or if you are carrying the tools of your work trade, chances are that your vehicle may be overloaded beyond its GVM and payload capacity and you may not even know it.

Typical items such as tools, tool boxes, cargo, a towbar, fuel, accessories, passengers and roof racks all combine to add weight to your vehicle and decrease the available payload. Towing a loaded trailer can also represent even more of a safety risk.

Every vehicle on our roads today has an official legally allocated Gross Vehicle Mass (GVM) rating and Payload Capacity (how much weight in the vehicle). The GVM rating is the maximum allowable weight figure (in kg's) as specified by the manufacturer when fully loaded. It's essentially the maximum legal weight, that you can safely drive at for that particular vehicle.

Pedders now offer a GVM+ upgrade solution for selected Hyundai iLoad models to assist in compliance for GVM and axle ratings. Through exhaustive and detailed testing, the Pedders GVM+ Upgrade Kits have been approved by the Australian Government Department of Infrastructure, Regional Development and Cities. So, if you are planning ahead with an impending new vehicle purchase, or have realised that your current vehicle is not quite handling the load we have the solution.

HYUNDAI ILOAD ON TQ SERIES ULP & TD GVM+ UPGRADE SOLUTION FROM PEDDERS

- Support network of over 120 Pedders outlets Australia wide.
- All suspension components installed as part of a Pedders GVM+ upgrade package are backed by a Pedders 2 Year/40,000kms Nationwide Warranty.
- When fitted with a Pedders GVM+ kit the Hyundai iLoad TQ Series ULP & TD has a certified GVM rating of 3490kgs and additional 330kgs of payload.
- The GVM+ upgrade kit is an ideal choice for those who carry heavy loads for a living. Ideal for fleet vehicles or tradies with tools.
- When the GVM+ upgrade kit has been installed to a new vehicle by the trained technicians at a Pedders GVM+ certified installer, a new compliance plate will be fitted. The new vehicle can now be registered with new increased G.V.M. This procedure will allow the vehicle to be legally registered and driven in all states of Australia.
- For vehicles that have already been road registered, the process varies from state to state. The vehicle may be required to be inspected by an authorised Automotive Engineer in that state and be issued with a compliance certificate. Contact your local Pedders GVM+ approved outlet for further details.
- Included in the Pedders GVM+ kit to suit the Hyundai iLoad is Pedders exclusive TrakRyder Kevlar Ceramic ADR approved brake pads. Offering ultra low dust and low wear, these brake pads provide outstanding braking performance in all conditions.
