TRAKRYDER

Pedders TrakRyder Ceramic Brake Shoes are a suitable upgrade for vehicles equipped with a rear drum brake that regularly carry or tow heavy loads.

Compared to traditional semi-metallic drum shoes, TrakRyder Ceramic Brake Shoes are less abrasive and therefore have extended life, exhibit less brake fade and are able to handle higher brake temperatures.

These Ceramic Brake Shoes are GG rated, giving increased pedal bite when cold and consistent braking feel over a wider range of temperature over regular FF rated shoes. This is important when towing, or carrying a load.

FEATURES AND BENEFITS

- More confident braking characteristics from cold and across a larger temperature range.
- Reduced pedal effort
- Increased bite when cold
- Improved brake balance when loaded and/or running an upgraded front brake setup
- Reduced brake fade
- Consistent coefficient of friction from cold to over 300°C
- Less abrasive than traditional material for extended life
- Faster thermal recovery
- Ability to handle higher brake temperatures
- Less noise than non-ceramic shoes

Pedders TrakRyder Ceramic Brake Shoes

Part #	Make & Model
6621012	Toyota HiLux
